Cheryl Phillips
FULL STACK DEVELOPER

phillipscheryl615@gamil.com · github.com/Achilles1986
Montreal, Canada

PROFILE

Full-Stack developer with 6 years of exprience and a proven track record of success in achieving extraordinary results. With a strong attention to detail and accuracy and the important ability to function well in a team setting.

WORK EXPERIENCE

Constellation Software
Full Stack Developer

04/2022 - 04/2023
Remote

- Developed a web application for stock market analyses. Created the web front-end using React and Bootstrap.
- Constructed a microservice ecosystem using Python and Ruby for scraping and digesting data. Transitioned the legacy app from jQuery-powered framework to MERN stack.

Descartes Systems Group
Full Stack Developer

06/2018 - 04/2022

- Created and maintained the front end from scratch using TypeScript, React, React Query, and Material-UI.
- Built and maintained back-end to support core features of the application, including Flask-based REST API, Celery-based background jobs queue, and gRPC service for on-the-fly machine learning processing.
- Constructed unit and integration tests for the front end and back end. Set up and maintained CI/CD pipelines using GitHub Actions.

Myplanet
Web Developer

02/2017 - 06/2018

- Created the front end of the shopping web site in React.js within a tight deadline. l
- Implemented NoSQL database in Firebase Realtime.
- Consulted with the client on options for developing an internal-use web application. Developed a proprietary web application for use in manufacturing processes.
- Stabilized legacy software that improperly records patient data into other patients' records.

IBM Canada
Web Developer Intern

10/2016 - 02/2017

- Wrote and debugged code using various programming languages, such as HTML, CSS, JavaScript, or Python.
- Developed website layouts and user interface using design tools such ad Photoshop or Adobe XD.
